

May is Child Protection Month in South Africa, and we were delighted to receive from the National Department of Social Development our Child Protection Organization Registration after 7 years of diligence, preparation and hard work. The staff and children were delighted by the news, and we know there is much more work to be done in the realm of child protection.

We are looking for one person per day to sign up for a monthly debit order of just R75+ to help support a vulnerable or orphaned child in South Africa, while they are waiting to be placed into a loving and secure family.

Help these children be with the families they deserve.

Please be one of the first to sign up and make a daily difference.
