GCF SHINE'S THE LIGHT ON FAMILY CARE IN AFRICA AT THE 2015 CONFERENCE

On 10-12 June 2015, The Implementing Family Care in Africa Conference was held in Johannesburg South Africa. In attendance were 31 countries from Africa and across the globe including government officials, child protection organizations, NGOs and CBOs. The methodology of the conference was one of

interaction and dialogue between the speakers and delegates, as well as among the delegates themselves. This was a conference with a difference, as it was the voices of the delegates that were heard, noted and became points of discussion. These points of discussion will continue in the many months ahead, when the Virtual Online Site goes live, and the delegates will be able to continue to discuss, ask questions and share information online about points raised during the conference. Each month will see new questions and topics being posted. So check your inbox soon for the link to this site. We would like to thank everyone who attended this conference and for the wonderful support from our conference donors - Läkarmissionen and Wereldkinderen- and organizers. This was one to be very proud of!! - Check out our Facebook page for more photos from the conference.
